

**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, SEPTEMBER 1, 2006 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

On September 2, 2006 a new format for the daily Incident Management Situation Report (IMSR) will be implemented to provide a more efficient display of information.

Initial attack activity was light nationally with 142 new fires reported. Two new large fires were reported, one each in the Eastern Great Basin and Northern Rockies Areas. Six large fires were contained, two each in the Northwest, Eastern Great Basin and Northern Rockies Areas. Very high to extreme fire indices were reported in California, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, Oklahoma, South Dakota, Utah, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153rd Airlift Wing ANG, Cheyenne, Wyoming, and the 302nd Airlift Wing ANG, Peterson Air Force Base, Colorado, are deployed to Klamath Falls, Oregon. Maj. Steve Coppa is the Mission Commander. Two MAFFS C-130 aircraft and support personnel from the 146th Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Maj. Bill Green is the Mission Commander.

The U.S. Army Task Force Blaze, commanded by Maj. Jody Miller, is deployed to the Tripod Complex in Washington.

New Zealand and Australia are providing 92 fire specialists and managers to assist with suppression operations. Canada is providing ten 20-person crews and 59 fire specialists and managers.

NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

DERBY, Gallatin National Forest. A Type 1 Incident Management Team (Bennett) is assigned. This fire is 15 miles south of Big Timber, MT in timber and grass. Evacuation orders and area closures remain in effect. Plume dominated fire behavior with major crown runs were reported. Burn out operations continue.

PARADISE VALLEY COMPLEX, Gallatin National Forest. A Type 2 Incident Management Team (Kusicko) is assigned. This complex, comprised of four fires, is 29 miles southwest of Livingston, MT in timber. Structures are threatened and an area closure is in effect. Sustained crown runs with spotting were observed.

HUGHES 32 COMPLEX, Idaho Panhandle National Forest. This complex, comprised of four fires, is 16 miles northwest of Nordman, ID in cedar, hemlock and subalpine fir. Canadian power lines are threatened. Structure protection remains in place for a historic fire lookout. Minimal fire behavior was reported.

HEAVENS GATE COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Stanich) is assigned. This complex, comprised of four fires, is 10 miles west of Riggins, ID in grass and timber. Structure protection is in place for one ranch. Single and group tree torching and short runs were observed.

SUN DOG, Flathead National Forest. A Type 2 Incident Management Team (Heintz) is assigned. This fire is 18 miles north of Whitefish, MT in timber. Numerous residences, a historical cabin and a watershed are threatened. Steep terrain and remote access are hampering containment efforts. Torching and short uphill runs were reported.

ULM PEAK, Idaho Panhandle National Forest. A Type 2 Incident Management Team (Reid) is assigned. This fire is 12 miles southwest of Noxon, MT in subalpine fir and hemlock. A radio repeater site is threatened and structure protection is in place for a Forest Service lookout. Steep terrain and poor access are hampering containment efforts. Cooler weather reduced fire activity.

HOLLAND PEAK, Flathead National Forest. This fire is five miles east of Condon, MT in timber. Steep, rugged terrain is hampering containment efforts. Light precipitation limited fire behavior to creeping and smoldering. No further information was received.

JUNGLE, Gallatin National Forest. This fire is 20 miles southeast of Livingston, MT in timber. Steep, rugged terrain is hampering containment efforts. Crown runs and long range spotting were reported.

ASHLEY LAKE, Flathead Agency, Bureau of Indian Affairs. This fire is six miles northeast of St. Ignatius, MT in alpine timber. Creeping and single tree torching were observed. The fire is in monitor status.

GASH CREEK, Bitterroot National Forest. This fire is six miles southwest of Victor, MT in mixed conifer and heavy dead and down fuels. Occasional torching was reported. This will be the last report unless significant activity occurs.

STINKY, Yellowstone National Park. This fire is 37 miles southeast of Gardiner, MT in lodgepole pine. Minimal fire activity was observed.

CLARKS CANYON, Central Land Office, Montana Department of Natural Resources and Conservation. This fire is 17 miles south of Dillon, MT in grass and sagebrush. Smoldering and torching fire behavior was reported.

NORTHWEST AREA INCIDENTS/LARGE FIRES:

COLUMBIA COMPLEX, Southeast, Washington Department of Natural Resources. A Type 1 Incident Management Team (Lohrey) is assigned. This complex, comprised of six fires, is 15 miles northeast of Walla Walla, WA in grass, brush and mixed conifer. Numerous residences, campgrounds, Bluewood ski area, a wind energy site and commercial resources are threatened. Evacuation orders and area road closures remain in effect. Backing fire and uphill runs were observed.

SHAKE TABLE COMPLEX, Malheur National Forest. An Oregon Department of Forestry Incident Management Team (Hunt) is assigned. This complex, comprised of nine fires, is 12 miles southeast of Dayville, OR in timber. Residences, a lookout and a communication site remain threatened. Area road closures remain in effect. Moderate fire behavior with backing fire and uphill runs were reported.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Whitney) and a Type 2 Washington Interagency Management Team (Gormley) are assigned. Whitney's Team is also managing the Cedar Creek and Tatoosh Complex fires. This complex is seven miles northeast of Winthrop, WA in mixed conifer. Numerous residences and other structures remain threatened. Torching, spotting and backing fire were observed.

CASCADE CREST COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Wilcock) is assigned. This complex, comprised of the Lake George, Puzzle and Black Crater fires, is 35 miles northwest of Bend, OR in timber and heavy dead and down fuels. Structures and communication sites remain threatened. Area recreation sites remain closed. Smoldering and creeping with occasional single tree torching were reported.

FLICK CREEK, North Cascades National Park. A Fire Use Management Team (Weldon) is assigned. The Team is also managing the Tin Pan Wildland Fire Use (WFU) incident. This fire is one mile east of Stehekin, WA in lodgepole pine, Douglas fir and spruce. Structures and recreational developments remain threatened. Backing fire with low intensity torching was observed.

SHARPS RIDGE, Umatilla National Forest. A Type 2 Incident Management Team (Goheen) is assigned. This fire is 15 miles southeast of Dale, OR in mixed conifer and heavy dead and down fuels. Difficult access is hampering containment efforts. Creeping and smoldering were observed.

CARBON COPY COMPLEX, South Puget Sound, Washington Department of Natural Resources. A transfer of command from a Washington Interagency Type 2 Incident Management Team (LaFave) back to the local unit will occur tomorrow. This complex is eight miles southeast of

Carbonado, WA in timber and heavy dead and down fuels. Steep, rugged terrain and rolling debris are hampering containment efforts. Minimal fire activity was reported.

TIN PAN, Okanogan-Wenatchee National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Residences and historical structures remain threatened. Backing fire with minor torching and short crown runs was observed.

QUINNS MEADOW, Northeast, Washington State Department of Natural Resources. A Washington Interagency Type 2 Incident Management Team (Barnett) is assigned. This fire is 25 miles northeast of Colville, WA in timber and brush. Residences and other structures are threatened. Smoldering, creeping and isolated torching fire behavior was reported. Reduction in acreage is due to more accurate mapping.

APPLEGATE, Wallowa-Whitman National Forest. This fire is six miles north of Flora, OR in mixed conifer and grass. Highway 3 has reopened. Smoldering, creeping and active backing fire were reported.

CEDAR CREEK, Okanogan-Wenatchee National Forest. This fire is eight miles southwest of Mazama, WA in timber. Structure protection is in place. Steep terrain and poor access are hampering containment efforts. Moderate fire activity was observed.

TATOOSH COMPLEX, Okanogan-Wenatchee National Forest. This complex, comprised of six fires, is 24 miles northwest of Mazama, WA in timber. Remote access is hampering containment efforts. Structure protection plans are in place. Active fire behavior was observed.

PINE RIDGE, Prineville District, Bureau of Land Management. This fire is 30 miles east of Bend, OR in timber and grass. Minimal fire behavior was observed. No further information was received.

MT. HOOD COMPLEX, Mt. Hood National Forest. This complex, comprised of 13 fires, is six miles east of Government Camp, OR in timber and heavy dead and down fuels. Steep terrain and heavy fuel loading are hampering containment efforts. Campgrounds and trails remain closed. Minimal fire activity was observed.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

ROCKLAND, Idaho Falls District, Bureau of Land Management. A Type 2 Incident Management Team (Whalen) is assigned. This fire is five miles east of Rockland, ID in timber, brush and grass. Residences, cultural sites and power lines are threatened. Spotting, torching and running fire behavior was observed.

BROWN'S CANYON, Sawtooth National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is five miles southeast of Yost, UT in pinyon pine, juniper, grass and sagebrush. Residences, commercial resources and a ranger station are threatened. Moderate fire behavior was observed.

RATTLESNAKE COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This complex is 13 miles northeast of Garden Valley, ID in subalpine fir and pine. Residences, commercial property and several campgrounds remain threatened. Structure protection and voluntary evacuation orders are in place. Active fire behavior with group tree torching was reported.

TRAILHEAD, Sawtooth National Forest. A Type 1 Incident Management Team (Martin) is assigned. This fire is ten miles southwest of Stanley, ID in lodgepole pine and Douglas fir. Numerous residences remain threatened. Minimal fire behavior was reported.

SOUTH FORK COMPLEX, Payette National Forest. A Type 2 Incident Management Team (Reed) is assigned. This complex, comprised of 26 fires, is 13 miles east of McCall, ID in timber. The town of Yellow Pine, Krassel Work Center, lookout towers, power lines and campgrounds remain threatened. Structure protection remains in place. Several roads in the fire area have been reopened. Minimal fire behavior was observed.

RED MOUNTAIN, Boise National Forest. A transfer of command from a Type 2 Incident Management Team (Raley) to a Type 1 Incident Management Team (Martin) will begin today. Raley's Team is also managing the Boundary Complex. This fire is 16 miles northeast of Lowman, ID in subalpine fir and lodgepole pine. Campgrounds, a Forest Service guard station and fisheries habitat remain threatened. Bull Trout campground remains closed. Active fire behavior was observed.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Incident Management Team (Perkins) is assigned. This lightning caused Wildland Fire Use (WFU) complex is being managed to accomplish resource objectives. The fires are burning 30 miles west of Challis, ID in timber and grass. Residences, campgrounds and fisheries remain threatened. Structure protection remains in place for several ranches. Isolated torching and short range spotting were observed.

DEEP CREEK, Manti-Lasal National Forest. This fire is five miles south of Levan, UT in grass and pinyon pine. A communications site and power lines remain threatened. Upslope runs and backing fire behavior was reported.

HAGEN, Wasatch Front Area, Utah State Division of Forestry Fire and State Lands. This fire is 22 miles southwest of Tooele, UT in juniper, sagebrush and grass. Archeological resources are threatened. Active fire behavior was observed.

BATTLE MOUNTAIN, Bridger-Teton National Forest. This fire is 30 miles northeast of Pinedale, WY in timber. A Forest Service campground, church camp and commercial resources are threatened. Active interior burning was reported.

TROUT CREEK, Payette National Forest. This fire is 50 miles northeast of McCall, ID in timber and grass. Smoldering and creeping were observed.

PAYETTE WFU COMPLEX, Payette National Forest. A Fire Use Management Team (Hall) is assigned. The Team is providing logistical support for the Trout Creek incident. This lightning caused Wildland Fire Use (WFU) incident, comprised of 12 fires, is being managed to accomplish resource objectives. The fires are burning 20 to 50 miles northeast of McCall, ID in timber. Backing fire, creeping and isolated torching were observed.

BOUNDARY COMPLEX, Salmon-Challis National Forest. This complex, comprised of the Boundary, Meadow and North Elk fires, is 14 miles southeast of Landmark, ID in grass and timber. Cabins, ranch and mine structures remain threatened. Creeping and smoldering were observed.

NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

BAR COMPLEX, Shasta-Trinity National Forest. A Type 2 Incident Management Team (Garwood) is assigned. This complex, comprised of four fires, is 12 miles northwest of Weaverville, CA in timber and brush. Residences and historic mining sites remain threatened. Difficult access continues to hamper containment efforts. Isolated short runs, backing and crown fire were observed.

UNCLES COMPLEX, Klamath National Forest. A transfer of command from a Fire Use Management Team (Hahnenberg) to a Type 2 Incident Management Team (Kaage) will occur today. This complex, comprised of the Uncles, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Structure protection is in place for cabins threatened by the Hancock fire. Backing and flanking fire, spotting and isolated torching were observed.

ORLEANS COMPLEX, Six Rivers National Forest. This complex, comprised of the Somes and Buck fires, is four miles west of Orleans, CA in timber and dead and down fuels. Steep, rugged terrain and difficult access are hampering containment efforts. Minimal fire activity was observed. This will be the last report unless significant activity occurs.

SQF – Sequoia National Forest

OUTLOOK:

Red Flag Warning: For the mountains of Ventura and Los Angeles Counties for low relative humidity.

Weather Discussion: Warming and drying trend the next few days for much of the West as high pressure builds over the region. Winds will be generally light. Thunderstorms to increase over southern California and southern Nevada with the threat of thunderstorms extending into the Pacific Northwest, Idaho and western Montana during the Labor Day weekend.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northwest Area Sunny.	Mostly in the 70s and 80s except in the 90s much of southwest Oregon.	West of Cascades: 15% to 30%. East of Cascades: 8% to 16% except 20% to 25% higher mountains.	West of Cascades: Mostly east 5 to 15 mph except 15 to 25 mph exposed ridges in the morning. East of Cascades: Mostly east 3 to 8 mph.
Eastern Great Basin Area Idaho, Bridger-Teton: Mostly sunny. Northern Utah: Partly cloudy. Southern Utah, Arizona Strip: Partly cloudy with isolated mountain showers and thunderstorms.	Idaho, Bridger-Teton: 58 to 70 mountains, 71-80 valleys. Northern Utah: 67 to 77 mountains, 78 to 87 valleys. Southern Utah, Arizona Strip: 68 to 80 mountains, 81 to 97 valleys, up to 108 in the lowest valleys.	Idaho, Bridger-Teton: 20 to 30% mountains, 11 to 19% valleys. Northern Utah: 14 to 28% mountains, 9 to 15% valleys. Southern Utah, Arizona Strip: 19 to 28% mountains, 8 to 18% valleys.	Idaho, Bridger-Teton: Variable from the north 5 to 15 mph. Northern Utah: Northwest 10 to 20 mph in the west, upslope/upvalley 5 to 10 mph in the east. Southern Utah, Arizona Strip: North 10 to 20 mph.
Northern Rockies Area Broad upper trough over eastern Montana and North Dakota will keep these locations mostly cloudy and continued cool with a stray shower possible. Meanwhile, upper ridge over the Pacific Northwest and Idaho will start a warming trend in the west with partly cloudy skies. All locations can expect light winds.	West of divide: 70 to 82. East of divide: 69 to 76. North Dakota: 72 to 76.	West of divide: 18 to 30%. East of divide: 20 to 32%. North Dakota: 25 to 40%.	West of divide: Easterly 5 to 10 mph. East of divide: Westerly 5 to 8 mph. North Dakota: Northwest 8 to 15 mph.
Southern California Area Areas of morning low clouds and fog coastal areas, otherwise mostly sunny, except becoming partly cloudy with isolated thunderstorms over the southern mountains and southern deserts in the afternoon.	85 to 100 mountains. 95 to 105 valleys. 100 to 110 upper deserts. 105 to 115 lower deserts.	50 to 70% coastal areas. 10 to 20% valleys. 5 to 15% mountains. 5 to 15% deserts.	Southeast to southwest 5 to 15 mph.
Northern California Area No information reported.			
Southern Area No information reported.			

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Western Great Basin Area No information reported.			
Rocky Mountain Area No information reported.			
Southwest Area No information reported.
